Howard Series

Stackable Perforated Stool

Summary

A piece of perforated pop-art that's as comfortable as it is minimal. Don't be fooled by Howard's constrained use of material: true-to-form, he's designed to give a little, but never break.

Stackable for easy storage, completely weatherproof, and easy to clean, Howard will last a lifetime. Choose from neutral white, light grey, smoke, or matte black, or inject with one of our standard brights. As with all RAD products, custom coloring and bolt-able foot detailing upon request.

And Howard being a pragmatist at heart, he can accommodate table, counter, and bar-height surfaces.

Dimensions

Small (table-ht):	16x16x18" HT
Medium (counter-ht):	16x16x24" HT
Large (bar-ht):	16x16x29" HT

Barbara Series

Steel & Marine Plywood Stool

Summary

Coffee house comfortable with a strong, modern edge, Barbara reminds us all the grace of simplicity.

As with all RAD products, custom coloring is available upon request. And always the gracious host, Barbara is available in table, counter, and bar-height models. Bolt-able foot detailing upon request.

We utilize durable Marine Plywood for our wood tops. Manufactured specifically for boat-builders, this product is comprised of balanced internal plys and thick face veneers, held together with waterproof phenolic glue.
